Senior Front End Developer & UI/UX Developer

📍 Amman / Jordan | 📞 00962798697928 | ✉️ [mansour.programmer@gmail.com](mailto:mansour.programmer@gmail.com)

Innovative front-end developer with 6+ years of experience creating responsive, user-friendly web interfaces. Proficient in HTML, CSS, JavaScript, and modern frameworks like React and Vue, with expertise in full-stack development using the MERN stack. Skilled in building interactive map visualizations and custom tools with Mapbox, delivering intuitive geospatial solutions.

Committed to clean, maintainable code and continuous learning to stay ahead of trends. A collaborative team player with a proven track record of delivering high-quality projects on time. Seeking to contribute to a dynamic team that values innovation and exceptional user experiences.

## RESPONSIBILITIES

- Developed responsive web applications using HTML, CSS, JavaScript frameworks, and the **MERN stack** (MongoDB, Expressjs, React, Node.js) for full-stack development.
- Built and deployed RESTful APIs using **Node.js** and **Express.js**, ensuring seamless integration with front-end React components.
- Utilized **MongoDB** for database design, data modeling, and efficient querying, optimizing application performance.
- Implemented interactive maps and data visualizations using **Mapbox**, enabling intuitive user experiences for geospatial data.
- Designed and developed custom drawing and markup tools in **Mapbox**, allowing users to add, edit, and manage map-based annotations efficiently.
- Collaborated with UI/UX designers to implement pixel-perfect interfaces and integrated front-end components with robust backend services.
- Ensured cross-browser compatibility, wrote efficient, reusable code, and utilized Git for version control in collaborative environments.
- Stayed updated on front-end and backend technologies, advocating for and implementing best practices to enhance project outcomes.
- Mentored junior developers to foster skill growth and shared knowledge on modern development workflows, including **MERN stack** and **Mapbox** integrations.
- Proactively took ownership of projects, effectively communicating with stakeholders and delivering exceptional results under tight deadlines.
